The essential and complete collaboration solution

Combining robust interactivity with advanced computing power, the ActivPanel Cobalt is the essential classroom collaboration solution. Utilizing highly accurate, Promethean Vellum™ writing technology, the ActivPanel Cobalt automatically detects differences between pen, touch, and palm erase, enhancing teacher efficiency and allowing multiple students to collaborate with ease.

ActivPanel[®] Cobalt™

A unified menu for seamless teaching experiences

The ActivPanel Cobalt delivers a revolutionary new user interface that places all of the most commonly used tools right at teachers' fingertips and within natural line of sight. This Unified Menu is always accessible and allows teachers to move seamlessly between content and resources without disrupting the flow of lessons. Within the Unified Menu, the Locker provides teachers with one place to go for all their favorite apps, tools, and files, saving time and making teaching with technology easier.

A writing experience without limitations

Promethean's Vellum™ writing technology delivers an authentic writing experience without limitations, enabling teachers and students to write confidently, fluidly, and naturally. The writing is fast and accurate and works just as expected. Pens write, fingers touch, and palms erase - it's like writing on a dry erase whiteboard, only better.

New ways to engage

The ActivPanel Cobalt includes Classroom Essential apps and a variety of teaching tools – all available at the touch of a button. Use the infinite canvas on the highly intuitive Whiteboard app to instantly supplement lessons. Draw, highlight, and annotate over any content from any source, and add excitement to any lesson or activity with the customizable Spinner and Timer apps.

Tested and built for IT support and security

The ActivPanel Cobalt has been built from the ground up to integrate into any technology environment. The onboard Android™ 8 operating system delivers a new level of speed, security, and reliability, while Promethean Panel Management provides visibility across your panels and the ability to remotely deliver instant over-the-air updates. All included software, apps, and platform services are purposefully designed for ongoing enhancements and continuous innovation, ensuring that today's investment will pay dividends well into the future.

ActivPanel[®]

Cobalt[™]

Robust interactivity

Teachers and students can collaborate with up to 20 simultaneous touch points and simultaneous pen, touch, and palm erase. Resize, drag, and move multiple windows to multitask and teach from several content types or apps at once.

Teaching untethered

ActivPanel Cobalt's controlled, multi-device mirroring lets teachers move freely and teach from anywhere in the classroom. During a lesson, the teacher can interact with mirrored screens directly from the panel, increasing student collaboration and participation.

Powerful audio

Students who hear better, learn better. The ActivPanel Cobalt's dual, front-facing speakers provide clear and rich audio.

Easy device connectivity

Teachers can easily access the front-facing ports for HDMI and USB connectivity.

Teacher-friendly center console

Designed with the teacher in mind, the ActivPanel Cobalt features an ergonomic, angled control console. Teachers now have quick and easy access to the Unified Menu, volume controls, source selection, and more.

All-in-one and connected

The ActivPanel Cobalt features the speed, security, and reliability of the Android 8 operating system onboard, with easy access to Google Drive[™] and OneDrive[™] cloud storage.

Wi-Fi[®] connectivity

The included Wi-Fi Module provides the flexibility required for diverse networking needs and offers more classroom mobility.

Promethean Chromebox

The Promethean Chromebox is the perfect solution for extending an existing Chrome OS[™] ecosystem to the ActivPanel Cobalt, providing certified and seamless access to your preferred apps from the Google Play Store. View and launch downloaded apps directly from the Unified Menu with one-click access and no need for source switching.
