

Meet some of our favourite elements from LEGO® Education SPIKE™ Essential. Pupils' creativity will flourish as they bring their STEAM creations to life.

Minifigures

Diverse identities and characteristics make STEAM learning relatable.

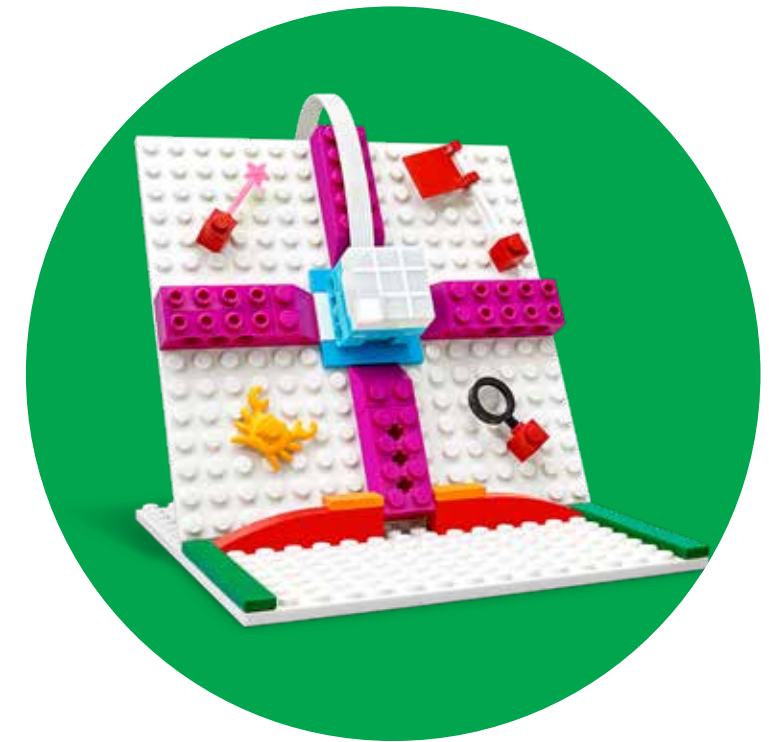

Stackable LEGO® Bricks

Stackable for easy building and accessible hands-on learning.

Bridge Pin

Connects creative, system-brick builds to hardware and LEGO® Technic elements.

16×16 White Baseplate

A 'blank canvas' ready for pupils' creative ideas, models and imaginations.

LEGO® Technic Small Hub

Create engaging, interactive models by connecting the Hub to motors, sensors, other LEGO® elements and Bluetooth.

Small Wheel

Features increased manoeuvrability and is a perfect fit to the small motor.

LEGO® Technic 3×3 Colour Light Matrix

Individually program the nine pixels to create patterns and animations in 10 colours.

LEGO® Technic Colour Sensor

Detects colours and allows creations to react to their environments.

Accessories

Accessories and decorative elements add a fun and quirky twist to pupils' stories.

LEGO® Technic Small Angular Motor

The compact design profile and integrated rotation sensor with absolute positioning bring LEGO® builds to life.
